Capacity & Workload Planning Intelligence

Workload demand, team capacity, utilization pressure, resource gaps, and planning scenarios.

Command Center Workload Explorer Capacity Forecast Pressure Index Resource Gap Scenario Planner **Recommendations** Data Guide

Planning Recommendations

- 1. Learner Support shows the largest estimated capacity gap (3104 hours). Consider redistribution or temporary support.
- 2. Learner Support has the highest SLA breach count. Review aging open items and escalation rules.

Suggested Management Actions

- Review high-pressure teams weekly.
- Rebalance lower-priority work away from overloaded teams.
- Use forecast outputs for short-term staffing or scheduling decisions.
- Track SLA breach patterns as early signals of capacity stress.
